Prophet

Muhammad

(Peace be upon him)

The symbol of Peace, Justice, and love.

"O prophet, we sent you as mercy for the entire universe." (God)

- Who is Muhammad (PBUH)?
- Muhammad (PBUH) is for whom?
- What is the fundamental message of Muhammad (PBUH)?

1. Who is Muhammad (PBUH)?

Prophet means the person selected by God for the guidance of human beings. God gives instructions, commands and guidance to the prophet and the prophet in turn guides the human beings. Prophet lives directly under the guidance of God. Muhammad (PBUH) is one of the prophets of God.

2. Muhammad (PBUH) is the last prophet of God.

After creation of the universe and the earth God sent the first person ADAM with wife EVE on this earth. Adam was the first prophet of God. After Adam, God sent the next prophet. From time to me God had been sending many prophets in all parts of the world. The last and the final prophet is Muhammad (PBUH), and God declared that, after Muhammad (PBUH), no any prophet would be sent.

3. Muhammad (PBUH) is for whom?

Earlier God was sending prophets for a particular community, or, for an area, but God sent Muhammad (PBUH) for the entire universe as "Mercy". He is not limited to any particular area or particular community, or tribe. God said in holy book "O Prophet, we sent you as mercy for the entire universe."

4. The fundamental and basic message of Prophet Muhammad (PBUH).

a. All human beings are real brothers and sisters of blood relations.

After creation of the universe and the earth, God sent first person Adam with wife Eve on this earth. Then their children had spread all over the world. Today all human beings on this earth are the children of the same one father and mother. Therefore all human beings are real brothers and sisters of blood relations.

b. Our life is examination.

God had given us birth on this earth for the purpose of examination. Who do good deeds and who do bad deeds is the real examination of our life of average 60-70 years.

c. God will reward us or punish us as per our deeds.

Those who do good deeds in their life span will be rewarded in the form of heaven. Heaven is the utmost luxurious place beyond our imagination where all our wishes would be fulfilled, and the life of heaven is the permanent life, where there is no death. And those who do bad deeds, they will be dropped into hell as a punishment. Hell is a deep and large pit filled with fire from all directions. People of hell would be burning continuously, and there is no death in hell too. Its unbearable and horrible life of hell that too permanent.

5. The Great Sin.

In our life if we incur some sin unwillingly or unknowingly and if we seek forgiveness from God with pure heart, then God may give forgiveness to our all such sins except one the "Great sin". What is great sin? To understand, let us take an example; consider that we are living in rented home, so we are not the owner of the home, we cannot alter anything in rented home without owner's will, and we have to pay amount of rent to the owner only. If we give amount of rent to some other person then, the real owner of home would never accept and he will drive

us from his house.
In the same way our God told us that I am the creator and owner of the universe, I had given you earth, I had given you sky, I had given you sun, I had given you water, I had given you all animals and vegetables, I had given you air and the rest of everything. You are living there for a short life of average 60-70 years, and you will be coming back to me, therefore you must not consider anything or anybody as God other than Me. Do not worship anything or anybody other than Me. Do not bow before anybody other than Me. If you do so then this is the "Great Sin" and I will not forgive you and all such persons would be dropped into hell permanently.

6. Who is God?

Now the question arises that, who is the God? What are the characteristics of God? How to identify the God?
God had given self introduction in the Holy

ASH-HADU AL LA ILAAHAA ILLALLAHU WA ASH-HADU ANNA MUHAMMADAN ABDUHU WA RASULUHU (SALLALLAHU ALAIHI WA SALLAM)
Means, "I witness that there is no God but Allah, and Muhammad (PBUH) is prophet and slave of Allah."

Prophet Muhammad (PBUH) said whosoever recite this witness by own tongue, and accept whole heartedly, and remains firm on it till death, he will surely be entered into heaven. For such person entry in heaven and saving from hell is guaranteed. This witness is also known as "KALIMA".
Let all of us together confirm entry into "JANNAT" (heaven) and saving from "JAHANNAM" (hell) by reciting this witness wholeheartedly, and remaining firm on it till death, and following the path shown by Prophet Muhammad (PBUH).
book "Quran" in chapter number 112 which is sent on Prophet Muhammad (PBUH). God have four characteristics. If any one of those is not present, then that is not God. Those four characteristics are as follows.

1. "Say, He is Allah the one."
   The way, the two drivers cannot drive one vehicle, or, there cannot be more than one prime minister or president of a nation, in the same way, the working of entire universe perfectly, proves that there is only one God, who is alone controlling the whole universe. Allah is one only.

2. "Allah, the Self-Sufficient."
   Allah is not dependent on anything, but, everything in the universe depends on Allah. Allah does not need sleep, does not become hungry. Allah is free from all needs.

3. Allah neither begot any nor was Allah begotten.
   Nobody given birth to Allah, that means Allah does not have parent, and Allah does not have children.

4. "And there is none equal to Him."
   Allah is unique. Allah does not have shape or figure. No one is comparable to Allah. There is no photograph, or, idol, or, statue of Allah.

7. Witness, success and Salvation.

The most important and fundamental message of Prophet Muhammad (PBUH) is, after understanding the fact that, there is only one God, our life is exam, God sent prophet for guidance of mankind, and we will be returning back to God where we will be rewarded or punished for our deeds, we should give witness of it as follows.

One of the thousands sayings of Prophet Muhammad (PBUH) is – "He is not faithful, He is not faithful, He is not faithful. People asked who? Prophet replied, "One who eats to full satisfaction but his neighbor sleeps hungry."

These are two names of Allah out of 99.

YAA HAADI	**YAA RAHEEM**
(Preceptor)	**(Merciful)**

Whosoever keeps on reciting these two names of Allah daily around 100 times, he will receive Allah's blessings, his works will be done smoothly, his obstacles would be removed, and Allah will guide him the true path.
